Swimming Pool /Hot Tub Chemicals

To Transport Safely: Leave in original containers, tighten caps/lids, sort separately (oil paints, pesticides and cleaners etc.) And pack upright in a sturdy box. NEVER MIX CHEMICALS OR SMOKE while handling hazardous materials.

Unacceptable Material: Empty Containers, Ammunition/Explosives/Fireworks – Check with local police, Asbestos, Batteries (any type), Biological or Infectious Waste, Commercial or Industrial Waste, Fire Extinguishers, Fluorescent Bulbs, PBC Ballast, Prescription Medicines (Police stations have a collection container), Sharps or Syringes, Propane Tanks, Radioactive Waste, Smoke Detectors and Asbestos or **Latex paint**.

Procedure: **MUST STAY IN YOUR CAR.** Open your trunk, tailgate or hatchback. They will not take items from inside your vehicle. Fill out the back of this form; your name, full address and list of items you are bringing. Keep it simple such as; 3 cans oil paint 4 spray cans of paint, 2 gal. Gasoline, 1 bag fertilizer, 1 bucket driveway sealer, 6 cans of household cleaners etc.... Indicate if this is your first time visit or how often you participate in the yearly event. Your information is vital to track who is coming and from which town. Volunteers will have a bag for you to drop your form into. Thank you for your time. Be mindful of the traffic and please have patience. We are all working hard to move vehicles along quickly.

Volume Determination: The measurement of 1 unit is equal to 5 gallons or 20 pounds of waste or a combination of the two; partial units will be rounded up to a full unit. Hope this helps. The professionals will determine the volume as we are not qualified to do so. The fee for the excess **over** the free 5 gallons (1 unit) hopefully will allow everyone a chance to participate with the allowance for the 1 free unit which was budgeted to cover the cost of this event. **Cash or checks only at this time.**

Take Notice: Limit of 2 SMOKE ALARMS PER HOUSEHOLD AT A CHARGE OF 1 UNIT = \$45
Other options available – see attendant during normal operating hours

Products marked Flammable/Combustible/Poison/Toxic/Corrosive/Caustic/Reactive/Irritant/Hazardous or Oxidizer are all dangerous.

NO TRASH ACCEPTED ON THIS DAY

MASK OPTIONAL

(TURN OVER)
