Agenda:

I. REAP Grants

<https://www.lccc.edu/programs-training/nh-rural-renewables/>

New Hampshire Rural Renewables (NHRR) is a team of energy professionals who provide no-cost, vendor-neutral technical assistance to rural NH small businesses for solar PV, energy efficiency and modern wood heat. NHRR is a program of Lakes Region Community College.

USDA Rural Development recognizes that energy efficiency and renewable energy technologies help rural businesses achieve economic sustainability. The Agency supports businesses making energy

investments through REAP. Technical assistance programs such as NH Rural Renewables can help prepare businesses to access these federal funds. Businesses seeking information about REAP in New Hampshire can contact USDA Energy Coordinator Ken Yearman at (802) 828-6070 or by [email](#).
