Met with Bill Downs to review five bids received for the logging operation on B-17-1 (Spaulding Pond Conservation Land). The bids varied in two aspects: projected revenue and anticipated start date. Regarding the second, although the bids named different start dates (and sooner would generally be better), Bill said that practical considerations make it unlikely the operation will start before summer, leaving only revenue as a determinative factor. The highest bid came from Chappell Farms which also has the advantage of being a local company. After discussion, Bob D. moved we accept the bid from Chappell Farms for \$62,224.92. Bob L. seconded. Passed unanimously.
