Old Business

In the June 2011 meeting, the board agreed to pursue a zoning regulation prohibiting new or replacement underground petroleum storage tanks. That turn out to be unnecessary – state RSAs now prohibit installation of underground petroleum tanks.

Minutes of 10/26 meeting: Pam makes a motion to approve the minutes, Eric seconds. Vote: Unanimous in the affirmative.

New Business

Steve Wagner has resigned from NRPC for health reasons. Kerrie Deirs and her assistant will be handling Mason's work.

The board discusses updating the Subdivision Regulations in regard to cisterns. Require them to be underground? Update size requirements to current best practices?

Notes

Adjourn
